## SUMMARY

I am a 5th-year student of Chemical Engineering at the Federico Santa María Technical University with a strong interest in computer science and the energy industry. I have previous experience in an industrial liquefied gas plant, where I learned the importance of safety and order standards in industrial environments. I have an advanced level of English and consider myself a disciplined professional known for my adaptability and quick learning. I am oriented towards achieving results and I have a high interest in working in production management and control.

## EDUCATION

2020	UNIVERSIDAD TÉCNICA FEDERICO SANTA MARÍA Chemical Engineering (ongoing)
2016	COLEGIO SAGRADA FAMILIA High School

## WORK EXPERIENCE

2023	INDUSTRIAL PLANT OPERATOR - LIPIGAS Main responsibilities: <ul style="list-style-type: none"><li>■ Characterization of liquefied gas cylinders</li><li>■ Cylinder expiration control</li></ul>
------	---

## ADDITIONAL WORK EXPERIENCE

2021	Summer Job Cashier at bakery
------	---------------------------------

## SEMINARS

2023	International Reactor Engineering Workshop	UTFSM
------	--	-------

## LANGUAGES

- English (fluent)
- Chinese Mandarin (basic)

## PROGRAMMING LANGUAGES

- Python, Django
- JavaScript, React

## **SOFTWARE TOOLS**

---

- Microsoft Word (advance)
- Microsoft Excel (advance)
- Microsoft PowerPoint (advance)
- COMSOL Multiphysics (basic)
- Autodesk AutoCAD (basic)
- AutoCAD PLANT 3D (basic)
- Autodesk Inventor (basic)
- MatLab (basic)
- Minitab (basic)
- ChemSep (basic)
- Aspen-Hysis (basic)
- Hydronautic (basic)

## **SKILLS**

---

- Report Writing
- Research and Analysis
- Self-learning
- Web Development

## **HOBBIES**

---

- Weightlifting
- Programming
- Sports
- Crossfit
